PROFESSIONAL

**They are our healers,
educators, role models
and comforters.**

Nurses are often the health care professional with whom patients, students and their families have the most direct contact. They are leading the way to provide high-quality health care for all, to increase access to care and to improve outcomes. Wherever health care is provided, a nurse is likely to be there.

We are proud to salute our nurses.

They deserve special recognition for their efforts in caring for patients and students and for ensuring a healthy nation.

National Nurses Week May 6-12

School Nurses Day May 11
