

# Here's the truth:

Unions are  
built on strength  
in numbers.

Every  
member  
who quits  
our union  
or fails to  
join our union,  
makes our union  
weaker and weakens  
every worker's union  
contract, benefits and  
protections on the job.

UNION

These groups claim  
to be on the side of  
"worker freedom,"  
but their real goal is  
to take away workers'  
rights so they  
can grab more  
wealth and  
power for  
themselves.
