

# Our World, Our Students

**ELT**  
nysut Education & Learning Trust

*Our World, Our Students* examines the complexity of teaching diverse student populations. Our students represent diverse cultural backgrounds and great differences in learning styles and abilities. This seminar explores the importance of recognizing our own biases and the obstacles that can prevent us from understanding students. It looks at ways to use their cultural resources, strengths and challenges, to create a more conducive learning environment. We also use cultural connections to help students appreciate themselves and each other.
