Special education certification has undergone many changes in the past 20 years. Prior to 2004, the special education certificate was considered an ‘All Grades’ certificate, or K-12. Individuals with this certificate could fulfill any and all assignments related to special education, including special class assignments.

In 2004 the special education certificate was replaced by the certificate title of Students with Disabilities (SWD) and this SWD title was broken into four (4) grade level certificates:

- SWD: Birth – Grade 2
- SWD: Grades 5 – 9
- SWD: Grades 1 – 6
- SWD: Grades 7-12: Content Area.

The SWD Grades 5-9 certificate was further delineated into a generalist title (for non-departmentalized assignments) or a content-specific title. The SWD Grades 7-12 certificates were separated into content area, requiring knowledge of a specific content area in addition to the knowledge base in special education.

In 2011 the SWD: Grades 5-9 and the SWD: Grades 7-12 content-specific certificate titles were eliminated and replaced with the SWD Grades 7-12 Generalist certificate, with the availability of content area extensions that could be attached to this certificate.

In 2018-19, additional changes were made to the SWD titles; state regulations were amended to allow for grade level extensions to existing SWD certificate titles.

<td>Minimum of 45 hours of acceptable CTLE focused on SWD at the adolescent education level AND 15 hours of acceptable CTLE in ELA OR 3 credits in ELA.</td>
<td>Grades 10-12</td>
</tr>
</tbody>
</table>

For each of the grade level extensions, teaching experience is defined as at least 75% or more of the applicant’s time is spent teaching students with disabilities in either of the two grade levels closest to the grade level extension during each of the three school years. Applicants for the grade level extension(s) use the state’s [Verification of Paid Experience form for Classroom Teachers and Pupil Personnel Services Professionals: Professional and Permanent Certificates, Extensions, Limited Extensions, and Statements of Continued Eligibility](https://www1.ed.gov/offices/OSSE/CECC/Pages/certifications.cfm) to fulfill this requirement.

New York State Teacher Centers offer state-approved CTLE courses that fulfill the requirement for grade level extensions. Interested parties can contact the director of the Rome Teacher Center at jlattimortete@gmail.com for information on availability of these courses across the state.
Statements of Continued Eligibility and Limited Content Area Extensions

In addition to grade level flexibility, the State Education Department also adopted regulations to increase the flexibility of select Students with Disabilities certificates to teach special classes. The SWD titles eligible for this flexibility include: SWD 7-12 Generalist, SWD 7-12 Content Specialist, SWD 5-9 Generalist, SWD 5-9 Content Specialist, and Special Education K-12.

a. Statement of Continued Eligibility or SOCE: The SOCE is available to special education teachers with any of the identified certificate titles who will teach a special class and have at least three years of satisfactory full-time teaching experience in grades 7-12 on or before July 1, 2019, during which time they were considered Highly Qualified by a school district in one or more subject areas using the High, Objective, State Standard of Evaluation or HOUSSE rubric (from NCLB).

b. Limited Content Area Extension: The limited extension is available to special education teachers with any of the identified certificate titles who will teach a special class but do not qualify for the SOCE. The limited extension enables these teachers to teach special classes for five years (with additional 5-year renewal option) while they complete 18 credits required for a content area extension in the subject areas (biology, chemistry, earth science, ELA, mathematics, physics, and social studies) they teach within the special class.

Limited extensions can be obtained by:

- having at least two years of satisfactory full-time teaching experience with students with disabilities in grades 7-12 (must have valid SWD 7-12 Generalist certificate) and previous designation as Highly Qualified by a district in the subject area using the HOUSSE rubric for NCLB purposes prior to July 1, 2019; or
- passing the NYS Content Specialty Test in the subject area; or
- passing an industry accepted exam in the subject area; or
- completing at least 9 credits of course work in the subject area; or
- completing at least 45 CTLE hours in the subject area and either:
  - having at least two years of satisfactory full-time teaching experience with students with disabilities in grades 7-12 in the subject area, or
  - being mentored for at least one year by a teacher in the school or school district who holds a professional or permanent certificate in the subject area.

Current special education teachers may possess any of the certificate titles listed above. Due to the variety of special education certificates held by current teachers and the varied teaching assignments they fulfilled, SED issued guidance for the appropriate assignments for special education teachers.

- Attachment A is SED’s guidance on ‘Special Education Certificate Titles and Teaching Assignment’
- Attachment B is SED’s ‘Examples of Reporting Primary and Special Education Instructors in Course Instructor Assignment’ guidance.

1 If the teacher holding this certificate meets the federal definition of highly qualified for a core academic subject, he or she may teach that academic area at the grade level of his or her certificate to students in a special class. The department recommends collaboration between the special education teacher and the general education teacher of the content area.

2 A teacher holding one of the SWD Content Specialist certificate is also qualified for the comparable general education certificate, but must apply for and hold the general education certificate to teach the general education assignment.

3 The academic area extension to SWD certification requires . . .
   1) 18 semester hours in the content area of the extension
   2) the Content Specialty Test in the subject of the Extension
   3) Collaboration with a certified general education content specialist weekly
   4) Co-teaching with a certified general education content specialist monthly

Note: For teachers employed by a school enumerated in Article 81, 85, 87, 88 or 89 of the Education Law or a special act school district as defined in Subdivision 8 of Section 4001 of the Education Law, that cannot meet the requirements of this subdivision, the school shall submit an alternate plan to the NYSED.

A special class is a class consisting of students with disabilities who have been grouped together because of similar individual needs so that they can receive specially designed instruction. In special classes, the content, methodology, or delivery of instruction is adapted to ensure the student has access to the general curriculum and the opportunity to meet the educational standards that apply to all students. Special Class Services serve students with disabilities whose needs cannot be met within a general education class, even with the use of supplementary aids and services.
