

Train the Facilitators: National Board Candidate Support

Providing facilitators with the tools to engage candidates in the systematic study of accomplished teaching through the National Board Certification process.

The National Board Candidate Support offering is designed for facilitators in providing support for the certification process using the vast framework of free materials shared by the National Board for Professional Teaching Standards.

The training will be differentiated to meet the needs of various audiences as illustrated below:

- 1) facilitators without any previous experience in the National Board process will attend Days 1, 2, and 3;
- 2) facilitators experienced or certified in the previous National Board certification process will complete an asynchronous CANVAS module prior to Day 2, then attend both Day 2 PM session and all of Day 3; or
- 3) facilitators experienced or certified in the current National Board certification process will attend both Day 2 PM and all of Day 3.

Participants will engage in rich, deep, collaborative conversations; become familiar with resources; and explore high quality materials that can be brought back, in a virtual setting and be tailored to meet their candidates' contextual needs.
