

Consumer Price Index

NO. 25-1

DECEMBER 2025
ALL URBAN CONSUMERS

The United States City Average Consumer Price Index (CPI-U) for **December 2025** was **324.054**—representing a change of **2.7** percent over the index for **December 2024**.

The Northeast Area Consumer Price Index for **December 2025** was **337.880**—representing a change of **3.3** percent over the index for **December 2024**.

The New York-Northern New Jersey Area Consumer Price Index for **December 2025** was **350.003**—representing a change of **3.4** percent over the index for **December 2024**.

The **January CPI** will be available **February 11, 2026**.

Future projections of the CPI by businesses and economic organizations are found on page 3. CPI increases are projected **2.8** percent for **2026** and **2.5** percent for **2027**.

The Average Annual Change in the CPI for the 2025 calendar year was 2.63%. This is important because under the tax cap law, allowable increases in the property tax levy are based on either 2 percent or the rate of inflation, whichever is less. Therefore, districts will use a 2.00% inflation factor when they are calculating their tax levy limit for 2026-27. Districts must use a nine-step formula to calculate their tax levy limit and submit this information to the NYS Office of State Comptroller by March 1, 2026.

Released on January 21, 2026
