

I Public Education

In this month of love I ask you to find the attached Valentine cards and fill out as many as you wish telling your state representatives why you love public education.

Then either return the cards to your NYSUT local or use the attached addresses to send the cards your self.

I love public education because:

It is rich in the arts.

Of the amazing teachers I had.

It prepared me for life.

It taught me about myself.

It taught me to love sports.

**Because it met me at my level and never forced me
To learn things I wasn't ready for.**

It was robust and filled with many extra activities.

Of the dedicated coach I had.

Let's meet hate with love and show our elected officials how much we love public education. All February long keep delivering your messages of love. Pass them on to any NYSUT member, friend of NYSUT, and parent group who feels the same as we do.

I love public education
